

Abdelhak CHELLAL

📍 Algiers, Algeria ✉ abdelhakchellal52@gmail.com ☎ +213 542 250 480

📁 Portfolio 🌐 Abdelhak-Chellal in Abdelhak Chellal

Profile & Research Interests

AI researcher, graduate of ENSIA (Engineering Degree & Master's in AI and Data Science) and EHEC (Master's in Management for Engineers). My background in ML, NLP, and multi-agent systems has made me attentive to issues of quality, automation, and reliability in software systems. I am starting a PhD at Université de Montréal in Winter 2027, focused on AI supply chain.

Education

National Higher School of Artificial Intelligence (ENSIA), Algiers Engineering Degree & Master's in AI and Data Science Comprehensive curriculum in ML, deep learning, NLP, computer vision, optimization, and intelligent systems.	Sep 2021 – Jul 2026
École des Hautes Études Commerciales (EHEC), Algiers Master's in Management for Engineers — Dual degree integrated with ENSIA.	Sep 2024 – Jul 2026
UMass Amherst, Massachusetts, USA — SUSI EE Program Selected among 4 Algerian students for an exchange program on leadership and entrepreneurship.	Jun – Jul 2024
Lycée Frères Drif, Dellys — Baccalaureate in Technical Mathematics , Highest Honors — 18.68/20	Sep 2018 – Jun 2021

Research Experience

Université de Sherbrooke — MOIVRE Lab , AI Research Intern — Final-Year Project - Research on LLMs and multi-agent systems for automatic generation of structured reports from heterogeneous data. - Design and evaluation of AI pipelines for structured content production; analysis of the robustness and coherence of generated outputs. - Exploration of reasoning, planning, and collaboration mechanisms between LLM agents.	Sep 2025 – Jun 2026
Algerian Space Agency (ASAL) , Data Science Intern – GeoAI Developed computer vision and deep learning models for satellite image analysis and classification.	Sep – Oct 2024

Professional Experience

Systemium , AI Consultant & Engineer - Designed and deployed AI solutions for business process automation, from exploration through production deployment. - Led training sessions on AI tools and techniques for internal teams.	Feb 2026 – Present
Scaleo (HR Tech Startup), AI Engineer Intern Developed NLP and ML solutions to automate recruitment and skills-assessment processes.	Jan – Jun 2026
Pysoft , Backend Developer Intern Designed and developed RESTful APIs and database architectures with Django and Django REST Framework, following software engineering best practices.	Jun – Sep 2023

Selected Projects

LLM Multi-Agent System for Content Generation (Ongoing) - Developed an LLM-based multi-agent system for automatic generation of structured content, studying the impact of instructions on output quality and coherence. - Explored reasoning, planning, and collaboration mechanisms between AI agents.	
AI E-Learning Platform for Arabic Language Learning Intelligent educational platform integrating NLP modules for linguistic analysis, automatic correction, and personalized learning paths.	

GeoAI Solutions for Satellite Image Analysis

- Applied computer vision and deep learning models for segmentation and classification of spatial data using PyTorch and TensorFlow.

Electric Power Consumption Prediction System

[GitHub](#)

- Built ML models with Python and Scikit-Learn for time-series prediction, with comparative performance analysis.

Passenger Traffic Analysis — Singapore Changi Airport (2009–2019)

[GitHub](#)

- Time-series analysis with statistical modeling, trend detection, and visualization to support decision-making.

Web & Mobile Applications — Malabis, Salario, I CARE (Django, Flutter)

- Developed applications integrating intelligent features: recommendation, data processing, and adaptive interfaces.

Technical Skills

Programming: Python (advanced), Java, C++, C, JavaScript, SQL

AI/ML: PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, Transformers, LLM

Tools: Django, REST APIs, Git, Docker, Linux, Jupyter

Domains: NLP, Computer Vision, Multi-Agent Systems, Time Series, Data Science

Leadership & Involvement

Elite D’or Academy, Mentor — Public Speaking Club

Jun 2025 – Jul 2025

- Coached young participants to improve their English communication skills.

SKILL & TELL Science Club, President

Jun 2024 – Jun 2025

- Led a team of volunteers in planning technical events and workshops for the student community.

SKILL & TELL Science Club, Head of Events Department

Sep 2023 – Jun 2024

- Organized technical events, conferences, and workshops for the ENSIA student community.

Google Developer Student Club (GDSC), Member — Development Department

Nov 2022 – Jun 2024

- Actively participated in technical workshops and hackathons organized by the club.

Conference Participation

RCOY MENA 2024, Amman, Jordan

Sep 2024

Regional conference on climate change, AI applied to renewable energy, and environmental preservation.

Languages & Transversal Skills

English: IELTS Band 7 **French:** TCF C1 (Score 554) **Arabic:** Native language

Skills: Problem Solving, Critical Thinking, Communication, Teamwork, Leadership, Adaptability, Research Methodology, International Collaboration
